

SKILLS

Frameworks/Languages

- JavaScript
- NativeScript
- Kotlin
- HTML5/CSS3
- React/Redux
- React Native
- Vue.js
- Laravel
- Node.js/Express
- PostgreSQL/Knex
- SASS
- Bootstrap
- Leaflet
- Heroku
- Travis CI
- Mocha/Chai
- Jest/Enzyme

Systems/Practices

- Git/Github
- Restful APIs
- AJAX
- Test Driven Development
- Agile Development
- Salesforce
- Teaching
- Client Management

EDUCATION

Turing School of Software &
Design, Front End Engineering

Colorado State University,
M.A. Philosophy

University of Colorado Denver,
B.A. Philosophy

SUMMARY

I am a Software Engineer with a background in teaching and client management. My passion for programming came out of my passion for philosophy where I learned about the power and utility of logic. I enjoy practicing test driven development, putting together thoughtful and intuitive UIs, and collaborating with teams to enhance our products and customer services.

PROJECTS

Cycle-City <https://github.com/saadricklamar/cycle-city>

Traveling to a new city, but not sure if it's bike accessible?! Cycle-City has biking information on over 60 cities and provides users with a map of the city's bike program and the ability to save that information.

Tech Used: Leaflet, Heroku, JavaScript, React, Redux, Jest/Enzyme

Movie Tracker <https://github.com/saadricklamar/movie-tracker>

A Netflix replica that allows users to create an account, log in, browse the latest movies, and add favorites.

Tech Used: JavaScript, React, Redux, SASS, Jest/Enzyme

Harvard Art Gallery <https://github.com/saadricklamar/harvard-art>

Using the Harvard Art Museum API, this is an art gallery that allows users to browse the Museum's collections of paintings, drawings, artifacts, and recordings.

Tech Used: Vue.js, Vue Test Utilities, JavaScript, Jest/Enzyme, Heroku

WORK EXPERIENCE

Client Engagement Specialist, Zillow Group

SEPTEMBER 2015 - JANUARY 2019

- Use CRM's such as Salesforce and Big Purple Dot to manage and coach Zillow Group clients
- Help agents install, navigate, and troubleshoot mobile applications
- Connect consumers to agents vis-a-vis text, email, and phone

Adjunct Instructor of Philosophy, CCCO

SEPTEMBER 2017 - PRESENT

- Teaching courses in Philosophy, Logic, & Ethics
- Create lectures and discussion topics
- Utilize Blackboard CRMs to engage with students
