SAAD BARADAN

SENIOR FRONTEND ENGINEER

SKILLS

Languages

- JavaScript / TypeScript
- HTML / CSS / SASS
- PHP

Frameworks

- React
- React Native
- Vue.js
- Stencil.js
- Electron

Libraries

- Redux / Zustand / React Query
- Tailwind / Styled Components
- Storybook / Flowbite
- Cypress / Playwright
- Jest / Enzyme
- Chart.js / OpenLayers / Leaflet
- jQuery

Tooling

- Cloudflare
- AWS Lightsail
- GitHub / Bitbucket
- Jira / ClickUp
- CircleCI
- Postman
- Figma

EDUCATION

Turing School of Software & Design, Front End Engineering
Jan 2019 - Aug 2019

Colorado State University,
M.A. Philosophy
Sept 2013 - May 2015

University of Colorado Denver,
B.A. Philosophy
June 2007 - May 2011

WORK EXPERIENCE

Senior Frontend Engineer, MediaViz AI

May 2024 - Present

- As the lead Frontend Engineer, my work centers on performance at scale, creating intuitive UX/UI, and close collaboration with backend, QA, & design teams. Below are 4 core products I've built or overhauled to meet the needs of high-volume photo curators:

- **Photo Assistant** (TypeScript, Stencil.js, Electron): Led the frontend overhaul of a neglected desktop application, delivering key new features, fixing critical bugs, and handling code signing and notarization to prepare it for release.

- **MediaViz Web** (PHP, JavaScript, jQuery): Leveraging insights from Photo Assistant, I built a lightweight web client from the ground up that enables users to efficiently display, manage, and curate 100,000+ photos with speed and ease.

- **MediaViz Desktop:** (JavaScript, Electron): Built from scratch to support our web client, this desktop application enables users to efficiently upload large photo collections, processing photos at speeds of up to 60,000 photos per hour.

- **MediaViz Admin**: (TypeScript, React, Flowbite): Built from the ground up to support internal teams and API customers, this web client centralizes user and photo-upload data, exposes admin controls for user management, and surfaces analytics and audit trails for compliance.

Frontend Engineer, MediaViz AI

December 2023 - May 2024

- Use JavaScript, Typescript, React, Electron, PHP, Stencil.js, jQuery, and a variety of Web technologies to build new features for web clients, desktop applications, and chrome extensions
- Use Bitbucket, GitHub, and YAML to build and manage continuous integration pipelines
- Use Electron Forge & Electron Builder to configure, sign, and publish Mac and Windows desktop builds
- Use AWS Lightsail and Cloudflare to deploy, optimize, & manage web applications

WORK EXPERIENCE CONTINUED

Software Engineer - Frontend, Loyal Health

Jan 2022 - Oct 2023

- Utilize TypeScript, Styled Components, & React to build and maintain a web client data management application
- Use Storybook to build a library of reusable UI components
- Communicate & collaborate with cross-functional teams of engineers, designers, and product managers on a daily basis
- Deploy modern, performant, and maintainable code to production on a weekly basis
- Collaborate with Backend Engineers to analyze, troubleshoot, and consume APIs
- Work with designers to review and implement Figma designs
- Use Cypress & Playwright to build out integration and unit tests
- Develop a curriculum for summer interns and provide mentorship throughly weekly check-ins and pair programming sessions
- Lead team to being 1st to accomplish various tech debt initiatives

Delivery Software Engineer, IQGeo

Jan 2020 - Jan 2022

- Utilize JavaScript, jQuery, & React to build out new features and fix bugs
- Use Python, Psycopg2, & PostgreSQL to build and enhance APIs
- Integrate various mapping & geospatial libraries like OpenLayers, Leaflet, & Turf.js
- Use Linux to develop, test, and deploy software to various environments
- Work directly with clients to design, build, test, and deploy new features
- Manage and multi-task between 2-3 projects and client stakeholders at one time
- Implement new installs of IQGeo products for clients
- Collaborate remotely with colleagues across US and international time zones

Instructor of Philosophy, Colorado Community College System

Jun 2017 - Present, (Part-time)

- Teaching the following courses:
  - Intro to Logic (PHI 1013)
  - Intro to Ethics (PHI 1012)
  - Intro to Philosophy (PHI 1011)
  - Environmental Ethics (PHI 2018)
  - Business Ethics (PHI 2005)
  - Comparative Religions (PHI 1014)
  - World Religions-West (PHI 1015)
  - World Religions-East (PHI 1016)
- Build course content including exercise sets, quizzes, essay assignments, syllabus, and discussions
- Utilize academic CRMs such as Desire2Learn & Blackboard Online
- Engaging in CCCS's Course Development & Feedback Program
- Host office hours and tutoring sessions through Zoom
